This website is representing popular [Canadian creative agency](#) offering marketing services. As you can see on screenshot it's very well organised, clean and very creative. But what you can't see is the functionality! There are tons of creative CSS effects right on the homepage but what's also super impressive are subpages, such as, team, careers, contact, agency etc. They are all customized and filled with creative / interactive effects. Check out also their interactive instagram feed / blog by clicking option in right top corner called "play". Visit live version in order to get right inspiration for your next creative project!

[LoFlo Records](#) is portfolio website of Jane McNealy, pianist, composer and singer songwriter from USA. You can't really see much see on screenshot since it's impossible to make good one! Scrolling experience is just something I've never seen before and portfolio is smoothly connected with soundcloud. Other subpages are made the same but it's really interactive and intuitive. Check out live version to get some great inspiration for your next web design project!

Rumchata is very unique website concept with amazing functionality. It comes with amazingly smooth scrolling and interesting parallax sections which are super creative as well. Social media interaction also plays huge role on the web. The best part are the recipes. Since, website is presenting alcohol (rum) it's an amazing idea to give visitors ideas on how to prepare lovely cocktails from. Feel free to scan the website by yourself and find out other interesting stuff to **get some 2018 inspiration for your web design project!** Rumchata web design has been nominated also as "site of the day" on awwwards.com, so good luck & cheers & enjoy your drink.

This design is **very popular on themeforest marketplace**, which is one of the biggest shop with web design resources, such as, graphics, plugins, wordpress themes etc. [Shopkeeper](#) rocks in the ecommerce category and it has been definitely bestseller for couple of days! There is plenty of eshop inspired by design of this template. It has bunch of different version which are truly advanced when it comes to quality of design. All elements on the website meet current web design trends of 2018 even that template was created a year ago! Probably the biggest graphic asset are hipster photos which are really popular nowadays in almost all industries. Then minimalist style if products and description are just something what people really love, since apple rolled out their branding. If you look at the theme there is actually nothing too special about it, it's just the perfect combination of 2 very modern trends. You should definitely keep these things in mind while designing your website. You have to meet trends

and show something your target group likes to see! Smart branding, intuitive design, creative approach are essential nowadays.

Belgian waffles had their American debut at the Century 21 Exposition in Seattle, WA in 1962.

Monasteries in the water market), the present day waffle was born.

Furthermore, waffle irons were engraved with religious symbols, coats of arms, and other patterns to brand the baked items.

1964

The waffles were further popularized in the United States during the 1964 New York World's Fair at Flushing Meadows Park, NY.

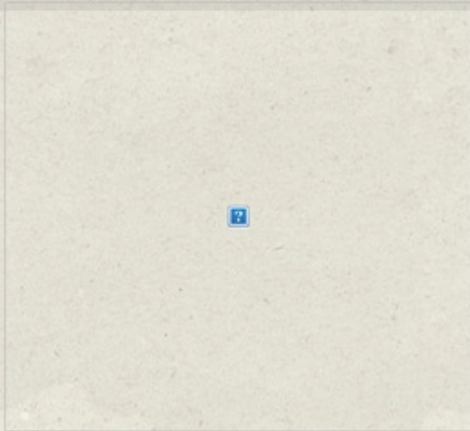

2010

WAFFLE SANDWICHES

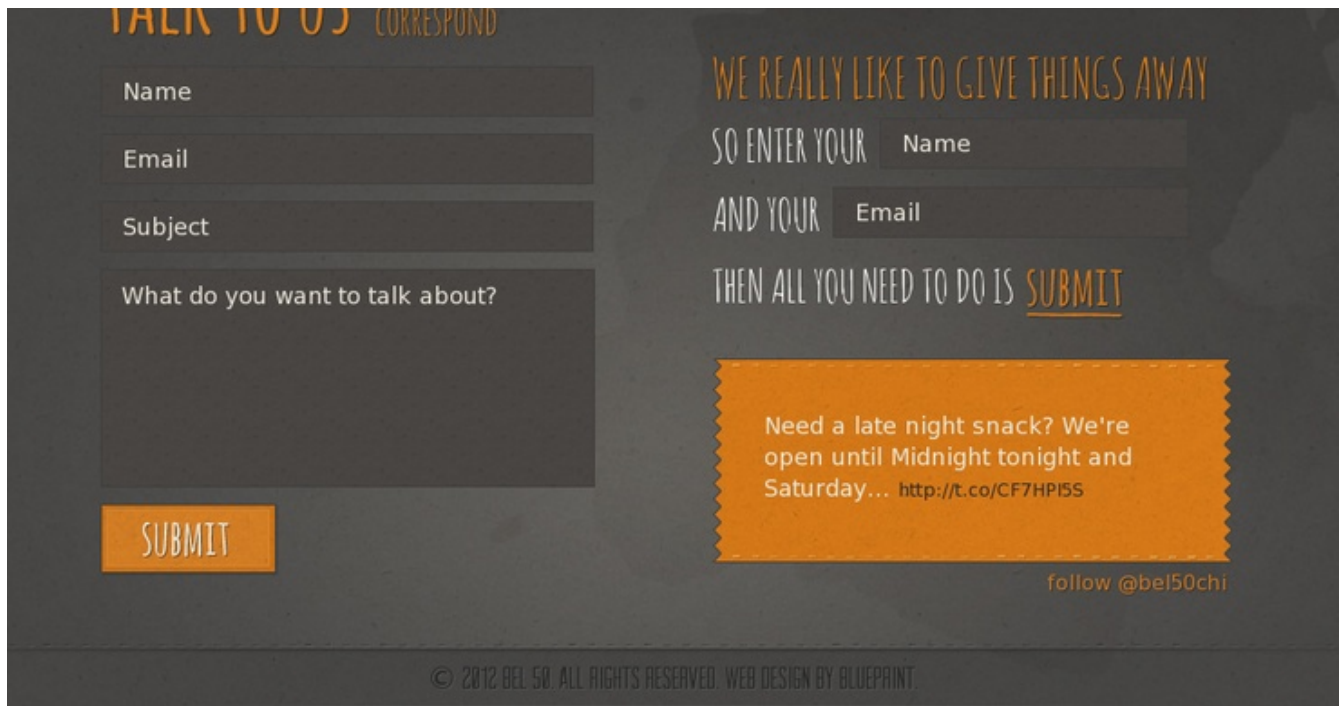

During the summer of 2010, Tim started to do some research on the ingredients of the Brussels Waffle. After conducting research on healthier versions of the Brussels Waffle, he thought about taking this a step further and turning the waffle into something that tastes like freshly baked country bread, but with more texture. At that moment, BEL 50 was born!
